

The care product for delicate textiles.

In professional textile hygiene, as in wet cleaning, the aim is always to deliver clean, hygienic laundry. To guarantee this, professionals need high-quality and absolutely reliable products to keep their customers satisfied.

The LAVAPLEX® wet cleaning method ensures that the relevant laundry types fulfil the requirements of the RAL GZ 992/4 quality mark. The system is also listed according to VAH (DGHM) 40 °C. With our professional system, success is virtually guaranteed when washing delicate textiles such as high-performance fibres, suede, leather and synthetics.

The LAVAPLEX® method consists of eight components and can be configured specifically to suit the task at hand.

LAVAPLEX®

The wet cleaning method for professionals.

Experts are convinced:

The future of professional fabric cleaning belongs to wet cleaning. More and more industrial laundries are adapting their machinery structure to this development. Care of delicate textiles for retirement and nursing homes is a very promising business area. Yet this requires professional detergents, because the challenge is to wash clothes gently while achieving clean and hygienic results.

The solution:

The LAVAPLEX® wet cleaning system. This care product for delicate textiles guarantees that even the most demanding customers will be satisfied. LAVAPLEX® provides a host of advantages that become apparent with a high washing throughput, since wet cleaning with LAVAPLEX® doesn't usually require manual pre-treatment. Simply load the machine – and off you go. All stains, such as those caused by food, drink, and excretions are removed directly by LAVAPLEX®. And LAVAPLEX® also supplies the finish for the subsequent treatment of textiles for special tasks. Water-based cleaning with LAVAPLEX® ensures that the outer garments worn by residents in residential and nursing homes are completely clean, have a fresh fragrance, maintain their colour intensity and feel good.

The LAVAPLEX® components are:

- **LAVAPLEX® BASIS**
 - Brightener-free liquid detergent for gentle wet cleaning of delicate textiles.
- **LAVAPLEX® DESINFEKT**
 - Laundry disinfectant for textiles that can be washed at 40 °C. Used in combination with LAVAPLEX® BASIS.
- **LAVAPLEX® FINISH**
 - After-treatment to give wet-cleaned textiles a soft feel. Improves the finishing effect.
- **LAVAPLEX® HYDROPROTECT**
 - Impregnating agent to make washable outer garments water and dirt repellent.
- **LAVAPLEX® FLAMMPROTECT**
 - Makes cellulose textiles and blended fabrics with a high percentage of cellulose flame resistant.
- **LAVAPLEX® APPRETUR**
 - Finishing agent and fibre protection for wet-cleaned textiles, improves fabric feel and crease recovery properties.
- **LAVAPLEX® LANA**
 - Special mild liquid detergent which is especially gentle on fibres for the most delicate wool and silk.
- **LAVAPLEX® SATOR**
 - Self-emulsifying leather greasing agent to rejuvenate washed leather and furs.
